Subject: Re: Aldicarb Press inquiry requesting images

Good morning Rebekkah,

The reporter is looking for any images we may have. RD doesn't have any images, but recommended the reporter contact TEMICK for images of the product. I plan to send the image below of aldicarb and suggest PPLS for labels. It doesn't sound like we have any other images available, I didn't think we would. I appreciate your quick response.

Thank you,

Carissa

Subject: RE: Aldicarb Press inquiry requesting images

Hi Carissa,

Your request on behalf of the reporter to locate "images of the pesticide TEMICK/Aldicarb in use" made its way to OPP/BEAD yesterday. My team and our supervisors would like to highlight that the request is rather vague. We have some questions that may refine the scope of the reporter's request, which can then be sent to the person or group who is best suited to respond.

1. Is there an interest in images of the label/package? *This probably would best be answered by RD or AgLogic, the only technical registrant for aldicarb (or the registrant's website.)*

2. Do you want pictures of application of TEMIK to crops? Or, the type of machinery used to apply aldicarb? What crop(s)? *BEAD does not have images of applying aldicarb to crops. If a specific crop is in mind, the reporter could contact famer/grower organizations, if images are not held within EPA.*
3. Do you want pictures of aldicarb's chemical structure? *This also is probably best answered by RD or the registrant.*

If you do receive additional clarification, we will try to assist you if we can.

Sincerely,
Rebeccah

Subject: Aldicarb Press inquiry requesting images

Good morning,

I hope you all are doing well and staying healthy. We received a request for images of TEMICK and/or aldicarb. I spoke with PRD (Sue) and she wasn't able to track down any images. Sue passed along your names to see if RD or BEAD has any images.

Do have any images I can share with the reporter?

Thank you,

Carissa

Subject: Press inquiry/Images

Hello,

I'm searching for images of the pesticide TEMICK/Aldicarb in use for project with Algonquin Books for Young Readers.

Thank you.
